

Finding a Provider for Your PPO Program

As you know, you will now be enrolled in a Preferred Provider Organization (PPO) program administered by Highmark Blue Cross Blue Shield. As long as you use a network provider, eligible services will be paid at the higher level of benefits.

For Provider Information call 1-800-810-BLUE or visit our Web site at www.highmarkbcbs.com

To find a provider:

1. Go to www.highmarkbcbs.com and click on **<Find a doctor, hospital or other medical provider>**

2. Enter the zip code and type of doctor or provider you're looking for and click on **<Search Now>** (Once you select a provider, you will need to verify that he/she participates in the BCBS PPO network by viewing the physician detail.) Or, click on **<Advanced Search>** to narrow down your search and pre-select BCBS PPO providers.

3. Enter the zip code, the type of doctor or provider you're looking for and click on **<Step 3>**.
4. Select any other search options you'd like. (If you are searching for a provider outside of the Highmark service area select **<BCBS PPO>** from the product dropdown menu.)
5. Click the **<Search>** button.
