

## Schedule of Benefits

**Medical benefits under this plan are provided through the Highmark Blue Cross Blue Shield Preferred Provider Organization (PPO) Program. It is your responsibility to make sure that a health care provider is a network provider before medical treatment is received. The health care provider that you select can assist with this information.**

Plan Information	
Minimum employment requirement	<ul style="list-style-type: none"> <li>• 24 hours per week for credentialed pastors</li> <li>• 36 hours per week for staff members</li> </ul>

<i>Premier Prescription Drug Program<sup>4</sup> (Defined by Premier Gold Pharmacy Network – Not Physician Network)</i>		
• Retail drugs <sup>5</sup>	You pay in-network deductible; 31-day supply.	No plan benefit.
• Maintenance drugs <sup>5</sup> through mail order	You pay in-network deductible; 90-day supply.	No plan benefit.

<sup>1</sup>Plan payments for services received from an out-of-network provider are based on the allowable charge for the type of care, service, or treatment received. If the provider's charges are more than the allowable charge, you will be responsible for paying the difference. Any of these extra amounts you have to pay will not count toward your calendar-year deductible requirement.

<sup>2</sup>Precertification required. If this does not occur and it is later determined that all or part of the inpatient stay was not medically necessary or appropriate, the patient will be responsible for payment of any costs not covered.

<sup>3</sup>The schedule of covered preventive services is outlined in Highmark's preventive care schedule, which is updated periodically based on changes in clinical practice guidelines.

<sup>4</sup>At a participating retail or mail order pharmacy, you pay the entire cost for your prescription drug, at the discounted rate Highmark has negotiated, until your deductible is met.

<sup>5</sup>Generic drugs are mandatory when available. After your deductible has been met, if you purchase a brand-name drug when a generic drug has been authorized by the physician, you will be responsible to pay the difference in cost between the generic drug and the brand-name drug.
